# What is Provision Map?

- Website for monitoring the progress of children with SEND
- All teachers have access to the site to write and review plans
- SENCo has overall access to monitor and track progress for further next steps

**Why do we use it?**

Autumn 2022 - Parent questionnaire – 33% disagree or strongly disagree that they know what interventions and strategies are in place to support their child

The screenshot shows a vertical list of four sections: 'Asses' (teal header), 'Plan' (purple header), 'Do' (blue header), and 'Review' (green header). Each section contains three horizontal progress bars, indicating the completion status of tasks within that section.

Autumn 2023 - Parent questionnaire – 83% agree or strongly agree their child is making progress with their support plans

Other assessment data

# What are the 7Cs?

**Strengths based** – 3 strengths and 3 areas for development. Purpose: to utilise strengths eg, if friendships are a strength, involve peers in supporting the areas for development.

**Curriculum continues** – 7 Cs is not an alternative to the curriculum, the Teacher will be differentiating for their needs anyway, this is ‘additional to and different from’ the curriculum.

**Learner centred** – learner and family are involved with Teacher in identifying strengths and areas for development
